Acting on a complaint from an un-disclosed source which was transmitted to him by General Agent Gardner of the State Humane Society, D. R. Warner, a local agent, officially visited the premises of Albert A. Gorham at the Center, last week, to inspect the condition of the live stock. It had been reported that they were suffering from insufficient feeding.

Mr. Werper found that while the cattle were in none too good order, the conditions did not warrant the charge of cruelty and therefore took no action towards a prosecution. Mr. Gorham was the first master of Redding Grange, and has held various public including those of Selectman and Representative. He thinks the complaint against him was prompted by malice. A like complaint against Fred Cole of the west side was looked into last week by a Danbury agent of the Humane Society, who found the conditions pretty bad. Mr. Gardner has been requested to come here and make a personal investigation of this case as well as of two or three others which are said to require attention.

Y.M.C.A. SCHOOL RECEIVES GIFT

Through Mr. R. T. Crane, 3rd, the Young Men's Christian Association has received from the Eaton, Cole & Burnham Co., a machine for testing the tensile strength of materials. The machine is most interesting not simply for its value to school and its work but also because most of the work on the machine was done by boys about the age of those in the association

In spite of many things it needs in the way of equipment the school is doing remarkable work. But the example of Mr. Crane and his firm, if followed by others would greatly increase the efficiency of the school.

been no earnest seekers for jobs in the department for years. This year however, there is a change and one or more applications for every position in the department with but three exceptions are on the way. In the first place the still hunt which has been going on for the scalp of Superintendent Merle Cowles of the Lakeview home has assumed definite form. It is well known that Supt. Cowles is not a favorite with President Stone or Commissioner Rourke of the board of charities. There are also others in the department who have been awaiting a chance to get a whack at the good natured politician from the 12th district. While there are a dozen men in town who have held their ears to the ground to catch the first intimation of a change at Lakeview it is believed that Patrick Ryan has the best chance. Ryan who had charge of the farm at Lakeview last year has a strong pull and his name is already on the slate in what are considered indelible characters. There is also an unwonted activity amougst the medical fraternity. Every position in the gift of the board is sought for eagerly by several applicants. The members of the board have not as yet given any indication of their preferences or whether any changes are contemplated but the applicants are at work nevertheless and living in hope.
